

DEVELOPING HUMAN POTENTIAL

DEVELOPING HUMAN POTENTIAL

Not all RTOs are created **equal...**

We don't 'sell' courses and we don't 'push' qualifications, we offer the opportunity to level up your life, connect with the best in industry people, develop amazing skills, develop a sense of self, develop the future you want by developing your human potential.

We are an Australian-owned and operated Registered Training Organisation (RTO ID: 31972) offering a variety of courses across Australia, we are founded by experts in the building and construction/ civil industry so we know our shit. Take on the experience of a lifetime and change your world forever, get the promotion, get the recognition, get your career going by getting qualified with Foundation Training Australia.

Developing Human Potential

Our Purpose

Our mission is the essence of our why and the driver of what we do. Our passion is people and the amazing things they can do when given the opportunity to do them, so this is what we offer.

Develop amazing skills, develop a sense of self, develop the future you want by developing your human potential.

This is our business reason to exist for the next 100 years. It is what we believe and what drives our attitude and behaviour every day.

Everyone we deal with
– Employers, learners, association and other Stakeholders must feel that FTA are developing their potential through the education and training that we provide. If they don't – we are not living our purpose.

Why are we Industry Leaders?

We make no apologies for not being a “tick and flick”, here's your certificate training organisation. To achieve a real competency there is training and work which must be done, again we make no apologies for this approach.

This methodology takes a commitment from the Learner, the Trainer and of course the Employer when undertaking a Traineeship or Apprenticeship. FTA want everyone to work safely and with the skills and knowledge required to be competent and confident in what they are doing, This is achieved by our Industry leading training.

We believe people should be able to learn in inspiring and innovative ways, allowing them to enjoy a limitless and enriching education experience. At FTA our vision is to provide a Limitless Learning experience as our benchmark of this commitment.

Inspiring your ambition, we achieve this with our experience and expertise, coupled with industry knowledge, commitment to quality educational and training programs, and of course, we're bloody good at training!

Real training for real outcomes – not a statement but our commitment.

We believe that for a student to get the most out of their education, the learning must be relevant and the training must be tailored and have practical, real-world outcomes. We make no excuses for providing stringent curriculum requirements around the qualifications we offer. It's all about producing employees capable of doing the best possible job, and providing employers with the best possible result.

Setting the standard

As a progressive and innovative company with a highly experienced and passionate team, we are committed to doing things differently – authentically, ethically, sustainably and of course with a no bullshit policy. Our vision is to become the benchmark for RTOs, and the RTO of choice for students, employers and our stakeholders.

EDUCATE | INNOVATE | ELEVATE

It is our belief that each and every person wants to come to work and be competent. Competence aligns with confidence. Confidence inspires pride and self-esteem, bringing about greater performance and momentum in daily lives of the individual and the organisation.

Our whole purpose is about developing human potential. We're focused on providing an environment that engages and changes human behaviour that allows students to really extend themselves in a controlled situation. That way, when they're at work, they have a real, first-hand and practical understanding of their trade – so they're confident that they know what to do, to do their job right. Specialising in training courses for Queensland's building, construction and horticulture sectors, FTA is dedicated to equipping students with excellent technical skills in these essential industries.

RESOURCES

THE FTA TRADIE CARD

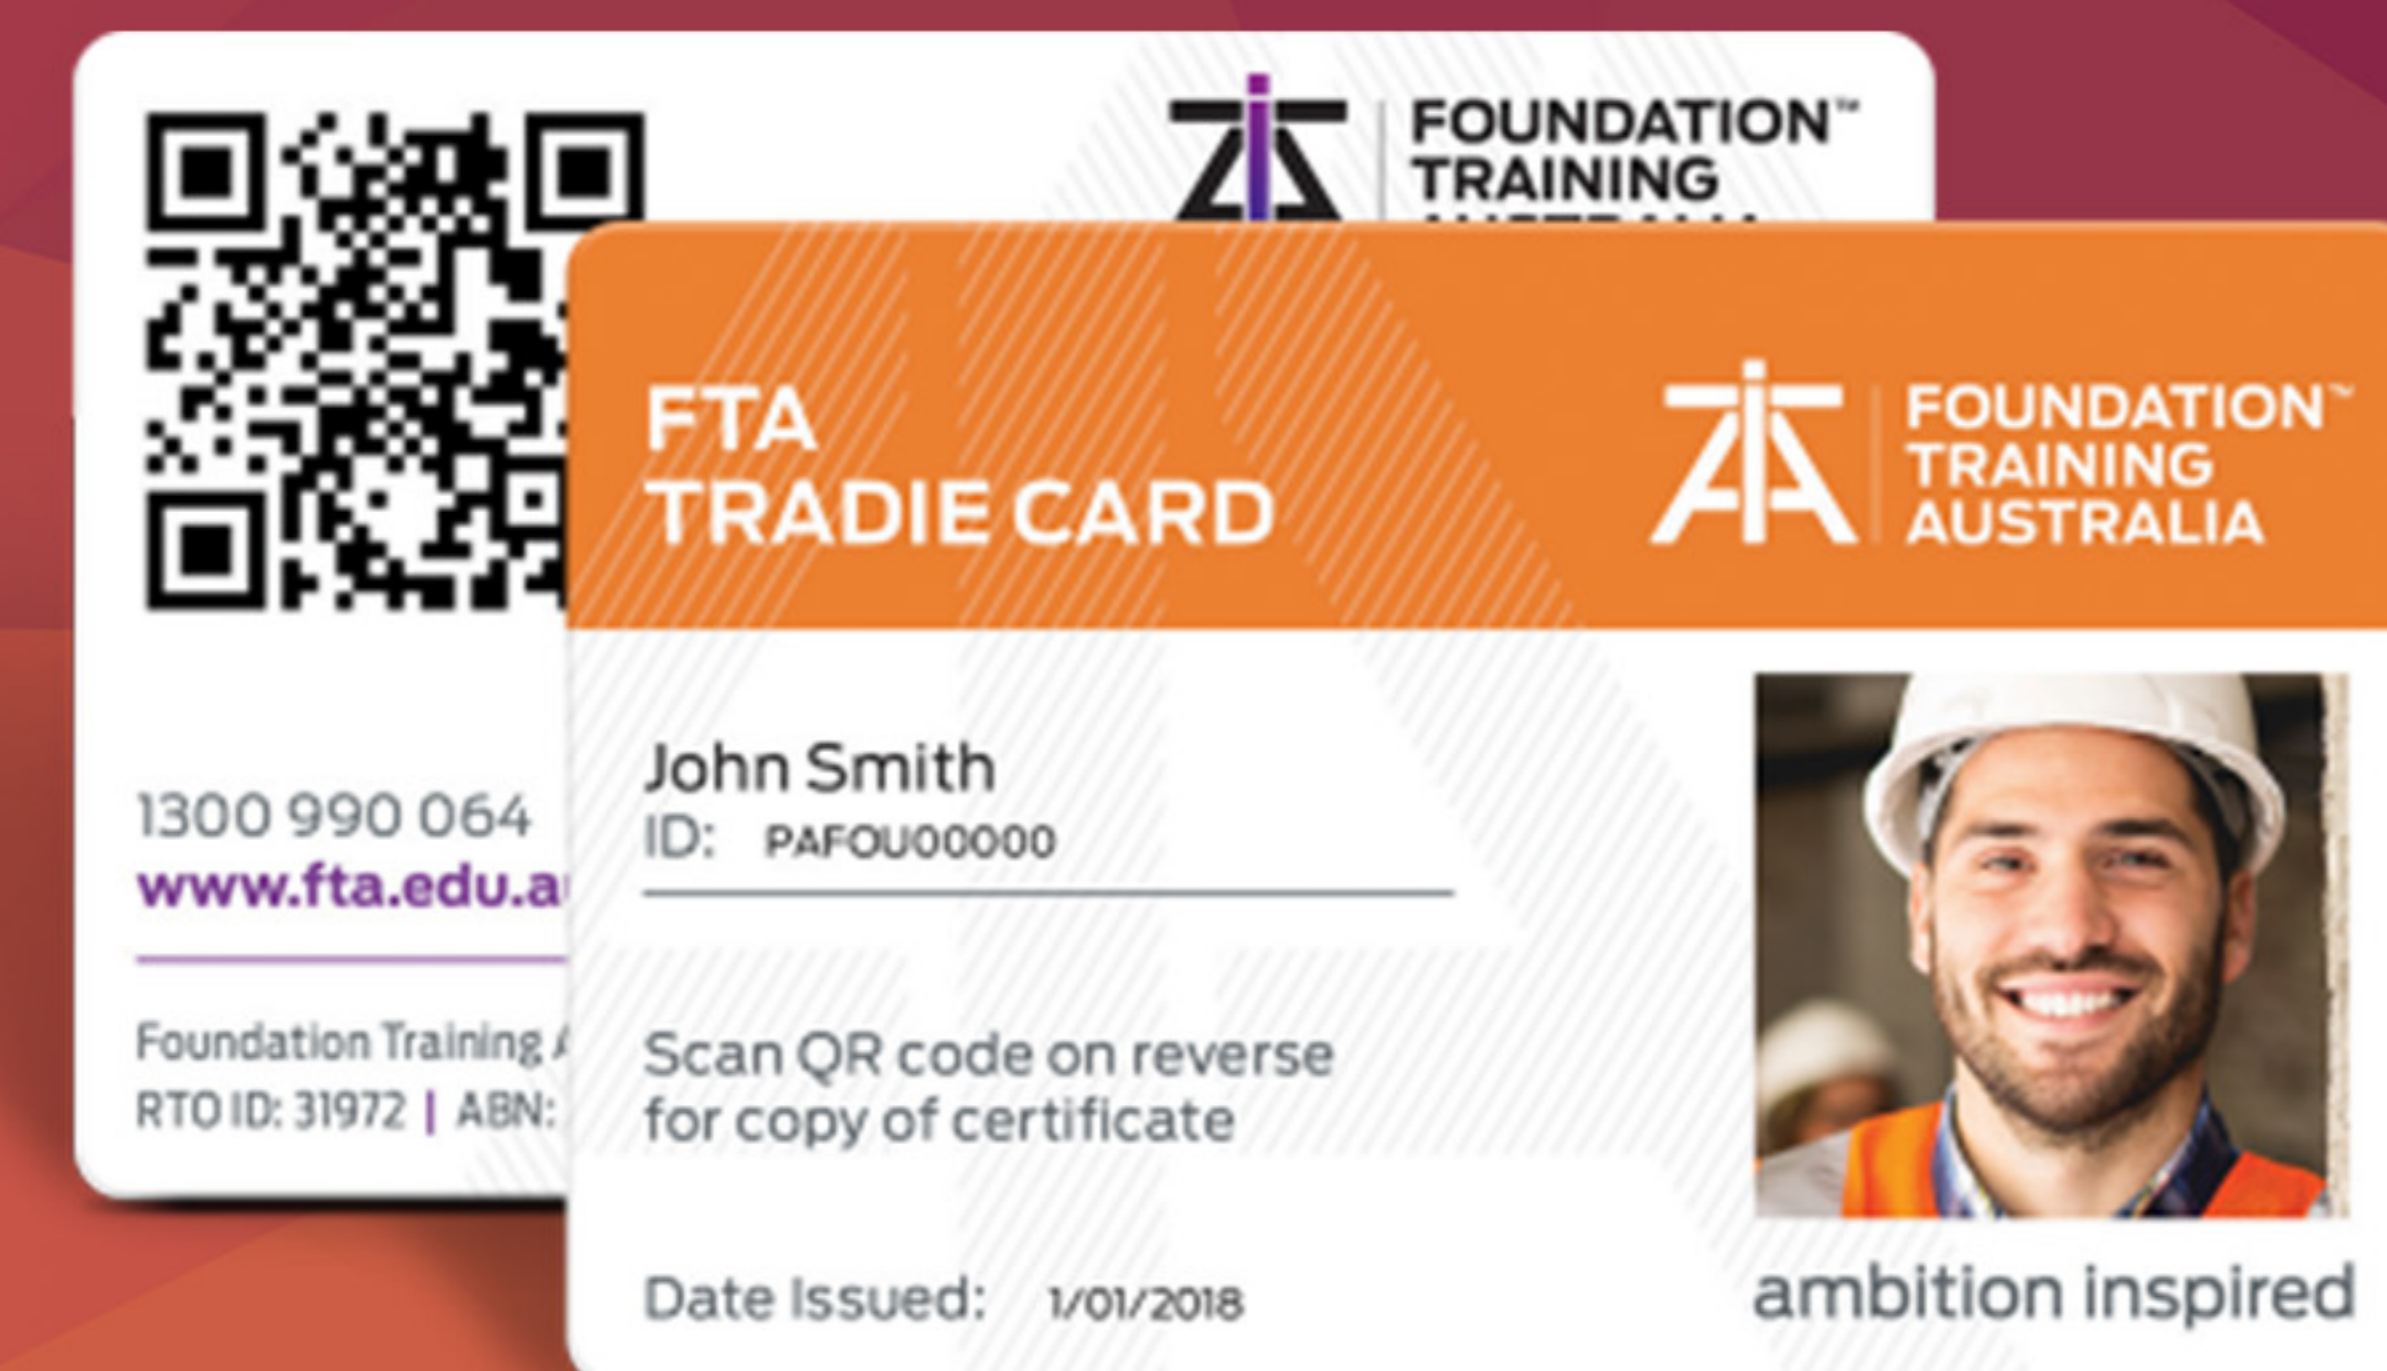

Get onsite quicker. Start earning faster.

The only tool in your hand that won't get you in trouble.

True to our commitment of finding solutions to daily challenges and to simply business operations, the FTA Tradie Card was born.

Confronted by refused site access, qualification accessibility, currency of skills and at times lack of organisation we set about to restore individual control and convenience.

The FTA Tradie Card is designed to securely store qualifications, tickets, CV's, licenses, VOC's (whatever can be scanned!) on an individualised card portal. Providing immediate access to all your 'paperwork and qualifications' the FTA Tradie Card reduces the large number of tickets and cards currently carried, along with the ability to have all their verified qualifications available instantly via a personal QR code. Activated via either a QR scanner or a smart phone camera with the ability to copy, print, email or view all which is stored.

Augmented Reality Training Australia

ARTATM

The Future of Training

ARTA is revolutionising training with cutting edge, intelligent behaviour learning technology providing positive, sustainable outcomes and exciting opportunities for students and employers alike.

**To truly be limitless we must think
limitlessly.**

We must redefine the way we look at education and how it's delivered. We must look to the future of training and student interaction.

Why? Because we have a belief that we must always be looking forward to do what we do better. Using modern technology in a simpler more effective manner.

It is our job as leaders in training to be actual leaders. To achieve this, we must push the envelope – exploring ideas and thinking beyond the realms of what already exists. ARTA is at the forefront of education technologies.

ARTA™

Experienced Trainers

Our trainers and assessors have years of realworld industry experience. They make training engaging and relevant, providing students with practical skills and a nationally recognised qualification.

Funding

We proudly offer a wide variety of funding options for eligible students. These options are designed to financially support students' with their study and help them achieve their career goals.

Student Support

Every student is supported in their learning journey with open access to their trainer. This enables students to ask any questions they may have, and to appreciate what they've achieved as well as understand what they need to accomplish to complete their qualification. No matter where in Queensland students are located, we'll be there to support them.

Delivery

We offer a wide range of delivery options to suit different learning styles and situations – including workplace delivery, workshop delivery, selfpaced online learning and mixed-mode delivery.

Recognition of prior learning options may also be applicable, depending on students' past experience.

What sets FTA apart?

While our passion for providing students and employers with the best possible outcome, along with our commitment to innovation and continual improvement differentiate us from other RTOs, there are a number of additional key factors that help set us apart.

We Believe In

No BS

We focus on stuff that matters

Fun

As one team we are a fun, focussed family.

We give a shit

We actually give a shit, experience our commitment.

Legit

Our word is our bond, our bond is our truth.

Grit

We operate with integrity, we are resilient.

Cheers

We celebrate all wins.

Genuine

We are real because we are authentic

Growth

We embrace lifelong learning.

Impact

Not your everyday thinkers.

Disruptor

We don't stand still.

ambition inspired
